## 如何安全 使用排风柜(2)

NO. 007

- 1. 不要在故障排风柜内进行操作
- 2. 在安装和拆卸设备除外,其他任何时刻不要将头部伸入排风柜内
- 3. 不得将排风柜台面作为化学试剂或废弃物存放场所,不要堵塞导流板槽缝
- 4. 排风柜内禁止使用明火
- 5. 减少(避免)在排风柜视窗前的人流和快速走动,不要放置风扇 或带有风扇的设备
- 6. 避免在排风柜内使用电插线板
- 7. 不要将通风柜安装在门窗或空调出回风口附近

## 如果排风柜中有泄漏、溢出或起火...

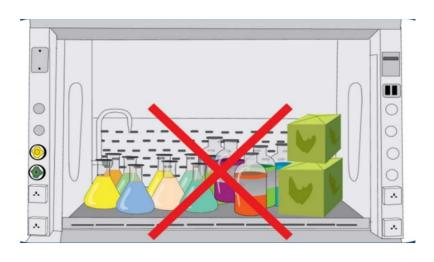

- 1. 关上视窗(在安全情况)
- 2. 对于化学品溢出(没有火灾)事故,启动通风柜紧急通风模式(如果通风柜是有这配置)
- 3. 有火灾时,关上视窗,不要启动紧急通风模式
- 4. 联系实验室负责人和 HSE部门求助

## How to Safely Use a Fume Hood (2)

NO. 007

- 1. Avoid operations in faulty FM (fume hood)
- 2. Don't put your head in the FM unless installing or removing equipment
- 3. Don't store chemicals or waste on the work surface; Don't block the grooves of the baffles
- 4. No open flames in the FM
- 5. Reduce (avoid) movement near the FM, and avoid placing fan or fan-equipped devices
- 6. No extension cords in the FM
- 7. Don't place FM near doors, windows, or air vents

## If a FM has a leak, spill, or fire...

- 1. Close the sash (safely)
- 2. For spills without fire, use emergency ventilation (if has)
- 3. For fires, close sash, and don't use ventilation
- 4. Contact lab supervisor and HSE for help
